Hiking Good Sense

Only cross Highway 101 at stoplights. Wait for the "Walk" signal.

Walk on the sidewalk or pathway.

When you must walk on the road, stay on the shoulder. Walk on the left side of the roadway so you are facing the oncoming traffic.

If you walk after dark, carry a light and turn it on when cars are present.

Be prepared for the weather to get cooler. Carry another layer for warmth.

Respect property. The hike route will not take you onto private spaces.

If you decide to walk on the beach, watch for "sneaker waves." Do not climb on any logs or driftwood that could be picked up by the surf.

Sometimes the surf and tide are too high for safe passage. If the beach does not look safe, take the paved pathway along the headland.
